Printing date 16.03.2018

Version number 2

Revision: 16.03.2018

#### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

- · 1.1 Product identifier
- · Trade name: PRENOFIX 100/00
- · Article number: 110908.0162.TV
- · 1.2 Relevant identified uses of the substance or mixture and uses advised against
- · Product category PC1 Adhesives, sealants
- · Application of the substance / the mixture Adhesives
- · 1.3 Details of the supplier of the safety data sheet
- Manufacturer/Supplier: EURO-LEDER Werner-von-Siemens-Str. 35 a D – 49124 Georgsmarienhütte Tel.: ++49 (0) 5401/88081-0 Mail: info@euro-service-depot.de
- · Informing department: Regulatory department
- **1.4 Emergency telephone number:** NCEC emergency service +44 (0) 1235 239 670 (24 hours)

#### SECTION 2: Hazards identification

· 2.1 Classification of the substance or mixture

Classification acc	cording	to Regulation (EC) No 1272/2008
Flam. Liq. 2	H225	Highly flammable liquid and vapour.
Skin Irrit. 2	H315	Causes skin irritation.
Eye Irrit. 2	H319	Causes serious eye irritation.
Repr. 2	H361d	Suspected of damaging the unborn child.
STOT RE 2	H373	May cause damage to organs through prolonged or repeated exposure.
Aquatic Chronic 2	H411	Toxic to aquatic life with long lasting effects.

#### · 2.2 Label elements

- · Labelling according to Regulation (EC) No 1272/2008
- The product is classified and labelled according to the CLP regulation.
- · Hazard pictograms

- · Signal word Danger
- Hazard-determining components of labelling: toluene
- · Hazard statements
- H225 Highly flammable liquid and vapour.
- H315 Causes skin irritation.
- H319 Causes serious eye irritation.
- H361d Suspected of damaging the unborn child.
- H373 May cause damage to organs through prolonged or repeated exposure.
- H411 Toxic to aquatic life with long lasting effects.

(Contd. on page 2)

Printing date 16.03.2018

Version number 2

Revision: 16.03.2018

#### Trade name: PRENOFIX 100/00

	(Contd. of page 1)
· Precautionary sta	atements
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P241	Use explosion-proof electrical/ventilating/lighting equipment.
P303+P361+P353	FON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351+P338	3 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
· Additional inforn	nation:
Contains Rosin, R	osin. May produce an allergic reaction.
· 2.3 Other hazard	S
· Results of PBT a	nd vPvB assessment

Results of PBT and vPvB assessment

- · PBT: Not applicable.
- vPvB: Not applicable.

#### **SECTION 3: Composition/information on ingredients**

- · 3.2 Chemical characterisation: Mixtures
- · **Description:** Adhesive.

Polychloroprene

#### · Dangerous components:

Note P of Annex 1 applies to the components (\*) of this product. ratio of Benzen < 0,1 % in weight.

CAS: 141-78-6	ethyl acetate	10-25%
EINECS: 205-500-4 Reg.nr.: 01-2119475103-46-0000	Flam. Liq. 2, H225; Eye Irrit. 2, H319; STOT SE 3, H336

Additional information Fourtheast	reading of the listed because abrease refer to eastion 10	

· Additional information For the wording of the listed hazard phrases refer to section 16.

#### **SECTION 4: First aid measures**

· 4.1 Description of first aid measures

- General information Instantly remove any clothing soiled by the product. Take affected persons into the open air.
- After inhalation Supply fresh air; consult doctor in case of symptoms.
- · After skin contact

Instantly wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor.

- · After eye contact Rinse opened eye for several minutes under running water. Then consult doctor.
- After swallowing Do not induce vomiting; instantly call for medical help.
- **4.2 Most important symptoms and effects, both acute and delayed** No further relevant information available.
- **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

### SECTION 5: Firefighting measures

<ul> <li>5.1 Extinguishing media</li> <li>Suitable extinguishing agents</li> <li>CO2, sand, extinguishing powder. Do not use water.</li> <li>Use fire fighting measures that suit the environment.</li> <li>Water haze</li> <li>Foam</li> <li>Fire-extinguishing powder</li> <li>Carbon dioxide</li> <li>For safety reasons unsuitable extinguishing agents Water with a full water jet.</li> <li>5.2 Special hazards arising from the substance or mixture</li> <li>Carbon monoxide (CO)</li> <li>Hydrogen chloride (HCI)</li> <li>Carbon monoxide and carbon dioxide</li> <li>Under certain fire conditions, traces of other toxic gases cannot be excluded.</li> <li>5.3 Advice for firefighters</li> <li>Protective equipment: Do not inhale explosion gases or combustion gases.</li> <li>Additional information</li> <li>Cool endangered containers with water spray jet.</li> <li>Collect contaminated fire fighting water separately. It must not enter drains.</li> </ul>	
Conect contaminated fire fighting water separately. It must not enter drains.	(Contd. on page 4)

Printing date 16.03.2018

Version number 2

Revision: 16.03.2018

#### Trade name: PRENOFIX 100/00

(Contd. of page 3)

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

#### SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources Wear protective clothing.
6.2 Environmental precautions: Do not allow to enter drainage system, surface or ground water. Inform respective authorities in case product reaches water or sewage system.
6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation. Do not flush with water or aqueous cleansing agents Send for recovery or disposal in suitable containers.

Do not use tools that can cause ignition.

6.4 Reference to other sections
 See Section 7 for information on safe handling
 See Section 8 for information on personal protection equipment.
 See Section 13 for information on disposal.

### SECTION 7: Handling and storage

- 7.1 Precautions for safe handling Store in cool, dry place in tightly closed containers. Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. Take note of emission threshold. Use solvent-proof equipment. Keep out of the reach of children.
- · Information about protection against explosions and fires:

Keep ignition sources away - Do not smoke.

Protect against electrostatic charges.

Highly volatile, flammable constituents are released during processing. Fumes can combine with air to form an explosive mixture. Flammable mixtures may be formed in empty containers.

- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage
- Requirements to be met by storerooms and containers: Provide solvent resistant, sealed floor.
- · Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions: Protect from heat and direct sunlight. Store in cool, dry conditions in original sealed container
- · Recommended storage temperature: +10°C +25°C

• Additional information: The lists that were valid during the compilation were used as b	oasis.
· 8.2 Exposure controls	
· Personal protective equipment	

- General protective and hygienic measures
   The usual precautionary measures should be adhered to general rules for handling chemicals.
   Keep away from foodstuffs, beverages and food.
   Take off immediately all contaminated clothing
   Wash hands during breaks and at the end of the work.
   Do not inhale gases / fumes / aerosols.
   Avoid contact with the eyes and skin.
- · Breathing equipment: Use breathing protection in case of insufficient ventilation.
- **Recommended filter device for short term use:** Combination filter A-P2
- · Protection of hands:

Protective gloves.

Solvent resistant gloves

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Butyl rubber, BR

· Penetration time of glove material

The information is based on literature data and information of glove manufacturers. Value for the permeation: Level  $\leq 4$ 

· Eye protection:

Tightly sealed safety glasses.

· Body protection: Protective work clothing.

SECTION 9: Physical and chemi	cal properties
• 9.1 Information on basic physical and o	chemical properties
· General Information	
· Appearance:	
Form:	Fluid
Colour:	Ember coloured
· Odour:	Characteristic
· Odour threshold:	Not determined.
· pH-value:	Not determined.
· Change in condition	
Melting point/freezing point:	Not determined
Initial boiling point and boiling range	: 57 °C (DIN 53171)
· Flash point:	-26 °C (DIN 53213)
· Inflammability (solid, gaseous)	Not applicable.
<ul> <li>Decomposition temperature:</li> </ul>	Not determined.
· Self-inflammability:	Product is not selfigniting.
· Explosive properties:	Product is not explosive. However, formation of explosive air/steam mixtures is possible.
· Critical values for explosion:	
Lower:	0.6 Vol % (EN 1839)
Upper:	16.0 Vol % (EN 1839)
· Vapour pressure at 20 °C:	220 hPa (DIN 51640)
· Density at 20 °C	ca. 0.85 g/cm³ (DIN 51757)
· Relative density	Not determined.
· Vapour density	Not determined.
· Evaporation rate	Not determined.
· Solubility in / Miscibility with	
Water:	Not miscible or difficult to mix
· Partition coefficient: n-octanol/water:	Not determined.
· Viscosity:	
dynamic at 20 °C:	ca. 1100 mPas (Brookfield (ISO 2555))
kinematic:	Not determined.
· Solvent content:	
Organic solvents:	ca. 81 %
Solids content:	ca. 19 % (ISO 3251)
· 9.2 Other information	No further relevant information available.

### SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- 10.2 Chemical stability
- · Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.

• **10.3 Possibility of hazardous reactions** Reacts with alcohols, amines, aqueous acids and alkalis

(Contd. on page 8)

Version number 2

Revision: 16.03.2018

Trade name: PRENOFIX 100/00

Develops readily flammable gases / fumes

• 10.4 Conditions to avoid No further relevant information available.

• 10.5 Incompatible materials: No further relevant information available.

· 10.6 Hazardous decomposition products: No dangerous decomposition products known

## **SECTION 11: Toxicological information**

· 11.1 Information on toxicological effects

· Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values that are relevant for classification:

Dermal       LD50       >2,900 mg/kg (rat)         Inhalative       LC50/4h       33 mg/l (rat) <b>141-78-6 ethyl acetate</b>	-		-C7, n-alkanes, isoalkanes, cyclics, <5% n-hexane

Description of the activities / processes covered in the Exposure Scenario
See Section 1 of the Safety Data Sheet
Conditions of use Customary application according to section 1.
Duration and frequency 5 workdays/week.
Physical parameters
The data on the physical - chemical properties in the Exposure Scenario is based on the properties of
the preparation.
Physical state Fluid
Concentration of the substance in the mixture Raw material.
Other operational conditions Observe the normal safety regulations when handling chemicals
<b>Other operational conditions affecting environmental exposure</b> Observe section 6 of the Safety Data Sheet (Accidental release measures).
Other operational conditions affecting worker exposure Avoid contact with the skin and eyes.
Other operational conditions affecting worker exposure Avoid contact with the skill and eyes. Other operational conditions affecting consumer exposure No special measures required.
Risk management measures
Worker protection
Do not inhale gases / fumes / aerosols.
Avoid contact with the eyes and skin.
<b>Technical protective measures</b> Ensure good ventilation/exhaustion at the workplace.
Personal protective measures
The usual precautionary measures should be adhered to general rules for handling chemicals.
Environmental protection measures
Avoid release to the environment. Obtain special instructions / refer to Safety Data Sheet.
Disposal measures
Must not be disposed of with household waste. Do not allow to reach sewage system.
Disposal procedures
Must not be disposed of together with household garbage. Do not allow product to reach sewage
system.
Waste type Partially emptied and uncleaned packaging
Exposure estimation
Consumer Not relevant for this Exposure Scenario.
